PROGRAM

INTERNATIONAL SYMPOSIUM 2015

SYSTEM CHANGE THROUGH SCHOOL LEADERSHIP

The Ontario Principals' Council (OPC) and International School Leadership (ISL) are pleased to present this unique symposium that will examine the professional associations' role in moving a system forward with coherence. The purpose is to gather leaders of professional principal and vice-principal associations from around the globe in an effort to better inform, share expertise and ideas, and discuss common issues to enhance our service offerings to organization members. Effective school leadership leads to influence and system change through the cooperation of leaders within our associations.

All dialogue, discussions and recommendations from this international symposium will be published in a formal White Paper report for the benefit of all and in support of the advocacy role each association has with Government and education officials.

DELEGATES

We would like to thank all of those who travelled to share with colleagues and to help inform the theoretical framework that professional associations can use to move systems forward. We are pleased to have representation from professional associations in the following jurisdictions: Australia, Brazil, Canada (Ontario and British Columbia), Finland, Italy, Jamaica, Kenya, South Africa, United Kingdom and USA.

LEADERSHIP NETWORK

This symposium will create a leadership network informed by a framework that begins the development of the parameters of effective professional associations. This three-day symposium is designed for learning, sharing and collaborating. We hope that your networking and collaboration will continue well beyond this symposium through your active participation in our Leadership Network.
